February 8, 2008
1:30 p.m.

GENERAL EDUCATION PROGRAM &
STUDENT LEARNING OUTCOMES
COMMITTEE

Hines Computer Lab

Members Present:
Deborah Albritton, Carol Bates, Linda Miller, Beulah Patton, Ann Lambert, Ann Mantel, Cornelia Miller, Lisa Pace-Hardy, Sue Lang

Next Meeting: Wednesday, February 20, 2008, at 1:30 in the Hines Bldg.

Committee members met to begin reviewing the student learning outcomes that were collected for Fall 07. We began by reviewing the technical programs. We reviewed Cabinet Making, Masonry, Barbering, Commercial Foods, Air Conditioning and Refrigeration, Small Engine Repair, and Auto Body Repair.

The committee made several suggestions concerning the collection of data. The committee felt that the faculty members were doing a good job and praised them for their use of rubrics, checklists, and other artifacts that documents the students’ achievements.

Members were encouraged to bring data for the General Education Student Learning Outcomes to the next meeting.

Respectfully submitted,

Carol Bates
